CIRCULAR

The Department of Computer Science & Engineering is organizing - A ONE-DAY “WORKSHOP ON ART OF WRITING AND PUBLISHING AN EFFECTIVE RESEARCH PAPER “on 5th December 2020. The workshop is delivered by speaker Dr.K.Sowmya Professor & HOD, Dept of IT, DhaneKula Institute of Engineering & Technology, Ganguru, Andhra Pradesh.

Hence, All the Faculty members are requested to register and attend the program without fail.

Venue: CSE Seminar Hall.

Note: The program Schedule and Brochure are enclosed.

Co-Ordinator: Mrs.N.Sri Lakshmi

A One Day Workshop

on

Writing & Publishing an Effective Research Paper.

CSE Seminar Hall

5/12/2020

Speaker:-

Dr.K.Sowmya

ABOUT THE DEPARTMENT

The Computer Science and Engineering department has become the center for learning with its excellent infrastructure and other facilities.

The CSE Labs are well equipped with Dual Core clients running on Windows and Linux licensed latest versions of operating systems and software, Xeon server equipped with all licensed software.

The systems in the entire campus are connected through 10/100/1000 Mbps CAT 6 UTP cabling, high-end routers, and switches with 42Mbps internet facility and optical fiber cable running all over the campus. The labs are established with an objective to promote practical knowledge in latest cutting-edge technologies and research work.

The department is having well qualified and experienced faculty members. The faculty is a perfect blend of different specializations in Computer Science and Engineering to impart their expertise in handling diversified courses of the Undergraduate programs. The teaching methodology in the department goes beyond fulfilling the syllabus requirements of the University, to meet the today's industry needs.

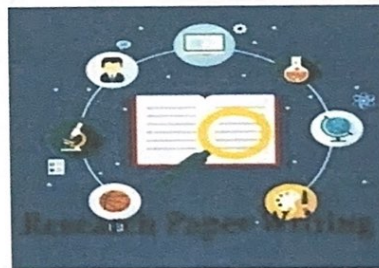

ABOUT THE PROGRAM

Publishing research results is an integral part of a researcher's professional life. This workshop presents a synthesis of guidelines found in literature about structuring and writing scientific papers. We outline the process of publishing research papers in indexed journals and conference proceedings, aiming to provide early-stage researchers with a hands introduction to essential issues. A hands-on training on Latex is planned.

CONTENTS

- Generating and choosing an idea
- Connecting with the reader
- Literature review (with specific focus on review-based papers)
- Drafting a research paper
- Citations and referencing
- Abstract, title and keywords
- Plagiarism and ethics of paper writing
- Top reasons for rejection of papers

All the Faculty/ Research Scholars/ P.G students/ Employees from relevant industries are eligible to register for the program. Spot registrations are also available.

PROGRAM REPORT

Name of the Program	A One-Day Workshop on Art of Writing & Publishing an Effective Research Paper
Resource Person	Dr.K.Sowmya
Date of Activity	05-12-2020
Organized by	Department of Computer Science and Engineering
Venue	CSE Seminar Hall

Objective:

The main objective of the workshop is to enhance the capability of participants in writing publishable manuscripts in first-class scientific journals and to increase their knowledge and understanding of the processes of scholarly publishing. Publishing research results is an integral part of a researcher's professional life. However, writing is not every researcher's favorite activity and getting a paper published can be a very tedious and time-consuming process. This workshop presents a synthesis of guidelines found in literature about structuring and writing scientific papers.

About the Workshop:

The resource person narrated the importance of writing and publishing the research papers, selection process of a good scholarly journal as per UGC regulations, the format and requirements of a good research paper and the ethics to be followed by the writers while publishing the paper. The session was followed by an interaction with the participants. We outline the process of publishing research papers in indexed journals and conference proceedings, aiming to provide early-stage researchers with a hands introduction to essential issues. A feedback was also arranged to get the response of the participants about the presentation.

Session Details:

- Generating and choosing an idea
- Connecting with the reader
- Literature review
- Making claims and supporting them

- Drafting a research paper
- Citations and referencing
- Abstract, title and keywords
- Plagiarism and ethics of paper writing

Outcome:

- The workshop was very informative. It gave insight on how to write effective research paper.
- The participants got the key points to write research papers.
- The participants will have a clear understanding of the essentials of preparing manuscripts for publication in high-quality research journals.

Total no. of Participants: 43

Summary Report

On 12th Aug 2019, on behalf of Department of Civil Engineering, DhaneKula Institute of Engineering & Technology , Ganguru , Organized a program to Staff and IV year studentS of B.Tech., on One Day Seminar on **RESEARCH ON ADVANCED CONSTRUCTION TECHNOLOGIES IN OPTIMIZE OF RESOURCES**

Dr. Ravi Kadiyala, Principal, DhaneKula Institute of Engineering & Technology ,acts as convener of the event and introduced the resource persons and addressed the students regarding the event.

Mr. V.NARASIMHA RAO (Assistant Professor, khammam Institute of Engineering & Technology College), attended as resource persons to give seminar on Advanced technologies concrete and its importance in various specific in construction. To understand the behaviour of fresh and hardened concrete. To make aware the recent developments in concrete technology To understand factors affecting the strength, workability and durability of concrete To impart the methods of proportioning of concrete mixtures.

Organizing this type of programs will be more useful to Staff and students to learn new technologies and techniques in construction Industry. With this event our students are very much satisfied and want this type of events in future also to improve their Technical skills.

The following are details about the event.

Event Details :

Name of the Event : **RESEARCH ON ADVANCED CONSTRUCTION TECHNOLOGIES IN OPTIMIZE OF RESOURCES**

Date : **12th Aug , 2019**

Time: **10:00.AM**

Venue: Civil Seminar Hall

Dr. S. Narasimha
HOD

DHANEKULA INSTITUTE OF ENGINEERING & TECHNOLOGY

(Approved by AICTE, Permanently Affiliated by JNTU, Kakinada)

Programmes Accredited By NBA: B.Tech in CE, EEE, MECH & ECE

An ISO 9001-2015 Certified Institution

Ganguru, Vijayawada – 521 139

A one day online faculty awareness program on

“Creating Awareness of Intellectual Property Rights and Industry Academia”

By

Mrs. A Hima Bindu,

Description:

Patent services refer to a range of professional services related to patents, which are legal protections granted for inventions. These services are often provided by patent attorneys or patent agents who are trained in intellectual property law

Patent services are essential for inventors, businesses, and researchers seeking to protect their innovations and navigate the complex landscape of intellectual property law. Consulting with a qualified patent professional is often recommended to ensure a comprehensive and effective approach to securing and enforcing patent rights.

.A patent is a legal document granting an inventor exclusive rights to their invention for a limited period, typically 20 years from the filing date. To qualify for a patent, an invention must be novel, non-obvious, and useful. Patents come in different types, including utility patents for processes and machines, design patents for ornamental designs, and plant patents for distinct and new plant varieties. The patent application process involves a search to ensure novelty, drafting a detailed application, filing with the relevant patent office, and undergoing examination.

Patents provide exclusive rights, allowing inventors to prevent others from making, using, selling, or importing the patented invention. Enforcement involves legal action in the case of infringement. International considerations include treaties like the PCT and the Paris Convention. Patents play a crucial role in protecting and incentivizing innovation across various industries.

It's important to note that patent laws and procedures can vary by country, so it's advisable to seek professional advice from a patent attorney who is familiar with the specific requirements of the jurisdiction in which you are filing.
