ENTREPRENEURSHIP DEVELOPMENT CELL

EVENT REPORT

Date	30-08-2019
Event Name	Job Vs Entrepreneurship as a profession
Venue	DIET Auditorium

On 30 Aug 2019 we conducted an Job Vs Entrepreneurship as a profession. The session was organized with

Dr. Vishnu vardhan rao,

Professor & Educationist, Panimalar Engineering college chennai.

A **job, employment, work** or **occupation**, is a person's role in society. More specifically, a job is an activity, often regular and often performed in exchange for payment ("for a living"). Many people have multiple jobs (e.g., parent, homemaker, and employee). A person can begin a job by becoming an employee, volunteering, starting a business, or becoming a parent. The duration of a job may range from temporary. An activity that requires a person's mental or physical effort is work (as in "a day's work"). If a person is trained for a certain type of job, they may have a profession. Typically, a job would be a subset of someone's career. The two may differ in that one usually *retires* from their career, versus *resignation* or *termination* from a job.

Most people spend up to forty or more hours each week in paid employment. Some exceptions are children, retirees, and people with disabilities; however, within these groups, many will work part-time, volunteer, or work as a homemaker. From the age of 5 or so, many children's primary role in society (and therefore their 'job') is to learn and study as a student.

Entrepreneurship is an act of being an entrepreneur, or "the owner or manager of a business enterprise who, by risk and initiative, attempts to make profits". Entrepreneurs act as managers and oversee the launch and growth of an enterprise. Entrepreneurship is the process by which either an individual or a team identifies a business opportunity and acquires and deploys the necessary resources required for its exploitation.

Early-19th-century French economist Jean-Baptiste Say provided a broad definition of entrepreneurship, saying that it "shifts economic resources out of an area of lower and into an area of higher productivity and greater yield". Entrepreneurs create something new, something different—they change or transmute values. Regardless of the firm size, big or small, they can partake in entrepreneurship opportunities.

The opportunity to become an entrepreneur requires four criteria. First, there must be opportunities or situations to recombine resources to generate profit. Second, entrepreneurship requires differences between people, such as preferential access to certain individuals or the ability to recognize information about opportunities. Third, taking on risk is a necessity. Fourth, the entrepreneurial process requires the organization of people and resources. The entrepreneur is a factor in and the study of entrepreneurship reaches back to

the work of Richard Cantillon and Adam Smith in the late 17th and early 18th centuries. However, entrepreneurship was largely ignored theoretically until the late 19th and early 20th centuries and empirically until a profound resurgence in business and economics since the late 1970s. In the 20th century, the understanding of entrepreneurship owes much to the work of economist Joseph Schumpeter in the 1930s and other Austrian economists such as Carl Menger, Ludwig von Mises and Friedrich von Hayek.

ENTREPRENEURSHIP DEVELOPMENT CELL

September edition of Hustle Talk, an initiative of inspiring talks by startup founders from The Sedibus, Malaxmi Group's Startup Ecosystem Platform was conducted at Dhanekula College of Engineering & Technology.

Raja Sekhar Vasa, Co-Founder & COO, Happy Adda Studios, An Education Technology company based in Bangalore, interacted with the students of Dhanekula on the topic called 'The Idea Book', which covered aspects about Edu-Tech tools for Recruitment, Games vs Gamification, Ed-Tech Scenario in India, Skills evaluation and Future of gaming. Happy Adda Studios is an emerging startup, developing and publishing learning-based games.

The startup accelerated by Google, Reliance Jio and XLR8AP, Happy Adda is one of the NASDAQ Milestone Makers in India and has won 'Best App of the Year 2017 Award' from Google. Their product 'KettleMind' was earlier selected into Google App Excellence Program. They have won the Economic Times' 'Power of Ideas' that was conducted at IIM- Ahmedabad by Facebook.

This apart, the startup has won 'Best Business Plan award' at IIM Visakhapatnam and their products were showcased in Global Entrepreneur Summit 2017. "We wanted to bring hustling entrepreneurs closer to the students to instill the fire to innovate. Happy Adda Studios has made quite an impact" said Deepa Balasubramanian, CEO, The Sedibus. Hustle Talk is conducted every month by The Sedibus to foster entrepreneurship and innovation within campuses of Andhra Pradesh.

CIRCULAR

The Department of Computer Science and Engineering is organizing - A ONE-DAY WORKSHOP ON "OPEN SOURCE TOOLS FOR RESEARCH" on 28th September 2019. The workshop is delivered by speaker Dr.M.Tanooj Kumar, Professor, Dept of CSE, DhaneKula Institute of Engineering & Technology, Ganguru, Vijayawada, Andhra Pradesh.

Hence, All the Faculty members are requested to register and attend the program without fail.

Venue: CSE Seminar Hall.

Note: The program Schedule and Brochure are enclosed.

Co-Ordinator: Mrs.L.N.B.Jyotsna

Speaker:-
Dr.M.Tanooj Kumar

ABOUT THE DEPARTMENT

The Computer Science and Engineering department has become the center for learning with its excellent infrastructure and other facilities.

The CSE Labs are well equipped with Dual Core clients running on Windows and Linux licensed latest versions of operating systems and software, Xeon server equipped with all licensed software.

The systems in the entire campus are connected through 10/100/1000 Mbps CAT 6 UTP cabling, high-end routers, and switches with 42Mbps internet facility and optical fiber cable running all over the campus. The labs are established with an objective to promote practical knowledge in latest cutting-edge technologies and research work.

The department is having well qualified and experienced faculty members. The faculty is a perfect blend of different specializations in Computer Science and Engineering to impart their expertise in handling diversified courses of the Undergraduate programs. The teaching methodology in the department goes beyond fulfilling the syllabus requirements of the University, to meet the today's industry needs.

ABOUT THE PROGRAM

Open source software (OSS) is software that is distributed with its source code, making it available for use, modification, and distribution with its original rights. You can also learn from the code, documentation, tutorials, and examples of how to implement, test, and optimize various machine learning tasks and challenges. One of the key benefits of open source software is that it is a platform where programmers are provided with freedom at no substantial cost. With open-source software, organizations and programmers can operate and use the source code in whatever way they want.

CONTENTS

- What is Open source?
- Research tools
- Referencing Tools
- AI Tools for Research
- Open-Source vs. Closed Source.
- Development model
- Literature Survey
- Conclusion

All the Faculty/ Research Scholars/ P.G students/ Employees from relevant industries are eligible to register for the program. Spot registrations are also available.

ABOUT THE COLLEGE

Dhanekula Institute of Engineering & Technology, established in the year 2009, which is the first of its kind Technical Institute founded by Sri Dhanekula Ravindranath Tagore, a visionary and a living legend. Affiliated to JNTU, Kakinada and approved by AICTE, has been awarded the ISO 9001:2000 Certification for academic standard by the internationally acclaimed TUV, Germany. It aims at providing a sound technical knowledge and broad vision to the technocrats of future as they are prepared for a successful tomorrow. To achieve the motto it has a comprehensive pedagogical structure which provides paramount academic skills, curriculum with the ever revolving dynamics of global business environment, esteemed faculty with their vast experience and expertise and world class facilities.

The institute is located in a serene atmosphere with magnanimous buildings having ultramodern computer labs, separate well-stocked IT library, high speed Internet connectivity to meet the latest trends of teaching requirements in the area of technical teaching and learning. The college has an Institutional Membership with CSI and currently various activities are carried out under CSI student chapter. The institution is well stocked with various online journals to promote research and advances in technology for both students and faculty.

This world class institute with global standards offers courses at the Undergraduate level in five areas (CE, ME, EEE, ECE, CSE) of engineering, at the Post Graduate level in two areas (ECE & CSE) of engineering and at Diploma level in four areas (CE, ME, EEE, ECE) of engineering.

PROGRAM REPORT

Name of the Program	A One-Day Workshop on Open Source Tools for Research
Resource Person	Dr.M. Tanooj Kumar
Date of Activity	28-09-2019
Organized by	Department of Computer Science and Engineering
Venue	CSE Seminar Hall

Objective:

This will be a brainstorming program for the people who are about to initiate their research career. The workshop is designed in a way such that a participant with very little knowledge in Latex can also typeset the document with ease. The workshop intends to provide “Hands-on Experience” to the participants about various features of the Latex document.

About the Seminar:

The workshop is designed in a way such that a participant with very little knowledge in Latex can also typeset the document with ease. Participants experienced hands-on practice learning sessions through which they got a better understanding of the Latex tool and its applications. The content delivery was as per the needs of every faculty along with interaction. As part of the practical session, he explained how one can write mathematical equations easily in Latex. Every participant edited an IEEE research paper on Latex and gained insight on how to insert images, sub-images, equations, tables, and cross references in a research paper.

Outcome:

After going through the workshop:

- Participants will understand various features of Latex.
- Participants will be able to include packages, content formatting, inserting figures, equations, and references.
- Participants will be able to write the conference paper, journal-manuscript and thesis in Latex.

Total no. of Participants: 38

EVENT NAME	Intellectual property -protection of innovation ,Birth anniversary of DR. APJ ABDUL KALAM
VENUE	DIET Auditorium

The Conference explored the challenges and opportunities for Africa in the context of the Fourth Industrial Revolution. It considered how to harness the potential of universities and research institutions as generators new knowledge and intellectual property assets, as well as ways to encourage the business community, to

embrace innovation and IP in support of national economic growth. Download the program
Attendance at the Conference was by invitation only. Participants included:

- ministers responsible for trade, industry, promotion of private sector, higher and tertiary education, science and technology, and Justice;
- senior government officials, as well as public and private sector businesses and inventors;
- intergovernmental organizations;
- regional economic and IP institutions; and
- opinion leaders from within and outside Africa.

National Innovation Foundation – India (NIF) has announced the winners of 2019 edition of Dr APJ Ab Kalam IGNITE Awards on October 15, birth anniversary of Dr APJ Abdul Kalam's which is celebrated as Children's Creativity and Innovation Day by NIF. This is a national competition of original technological ideas and innovations by children up to class 12 or those out of school up to the age of 17 years, is organized by NIF every year to promote creative ideas among children.

EVENT REPORT

DATE	30-11-2019
EVENT NAME	Awareness about startups and entrepreneur ideation
VENUE	DIET Auditorium

On 30 March 2019 we conducted an Awareness program regarding startups and entrepreneur ideation. The session was organized with Mr. CH. Swapan siddarth, Director, GBI.

In many ways, the life of a startup founder and the life of a construction worker are very similar in that they're both building something, essentially at all times.

While a construction worker might painstakingly lay the foundation needed to build the perfect house, the startup founder (and the team surrounding them) do the same each day, making the types of decisions today that will bear fruit tomorrow by way of increased growth and high sales.

One of the major pillars of any successful startup – and indeed, one of the most important elements of the foundations of a successful business in general – is brand awareness.

When we are more self-aware as an individual, we are able to act in more effective ways in challenging situations. In this regard, I am suggesting that when enterprises are more self-aware, they are more able to recognise and respond appropriately to situations they encounter, whether these be threats or opportunities. In effect, an enterprise is more able to sense, respond, adapt, transform or develop:

- than it would with lesser awareness
- then other enterprises in the environment in which it is operating.

Dr. G. Krishna Kishore

ABOUT THE COLLEGE

Dhanekula Institute of Engineering & Technology, established in the year 2009, which is the first of its kind Technical Institute founded by Sri Dhanekula Ravindranath Tagore, a visionary and a living legend. Affiliated to JNTU, Kakinada and approved by AICTE, has been awarded the ISO 9001:2000 Certification for academic standard by the internationally acclaimed TUV, Germany. It aims at providing a sound technical knowledge and broad vision to the technocrats of future as they are prepared for a successful tomorrow. To achieve the motto it has a comprehensive pedagogical structure which provides paramount academic skills, curriculum with the ever revolving dynamics of global business environment, esteemed faculty with their vast experience and expertise and world class facilities.

The institute is located in a serene atmosphere with magnanimous buildings having ultramodern computer labs, separate well-stocked IT library, high speed Internet connectivity to meet the latest trends of teaching requirements in the area of technical teaching and learning. The college has an Institutional Membership with CSI and currently various activities are carried out under CSI student chapter. The institution is well stocked with various online journals to promote research and advances in technology for both students and faculty.

This world class institute with global standards offers courses at the Undergraduate level in five areas (CE, ME, EEE, ECE, CSE) of engineering, at the Post Graduate level in two areas (ECE & CSE) of engineering and at Diploma level in four areas (CE, ME, EEE, ECE) of engineering.

A One-Day Seminar On "Research Fundamentals"

10th January 2020

Organized by
Computer Science and Engineering

Dhanekula Institute of Engineering & Technology
is a private college located in Ganguru, near Vijayawada
city in Andhra Pradesh. It is affiliated to JNTUK
Kakinada.

ABOUT THE DEPARTMENT

The Computer Science and Engineering department has become the center for learning with its excellent infrastructure and other facilities.

The CSE Labs are well equipped with Dual Core clients running on Windows and Linux licensed latest versions of operating systems and software, Xeon server equipped with all licensed software.

The systems in the entire campus are connected through 10/100/1000 Mbps CAT 6 UTP cabling, high-end routers, and switches with 42Mbps internet facility and optical fiber cable running all over the campus. The labs are established with an objective to promote practical knowledge in latest cutting-edge technologies and research work.

The department is having well qualified and experienced faculty members. The faculty is a perfect blend of different specializations in Computer Science and Engineering to impart their expertise in handling diversified courses of the Undergraduate programs. The teaching methodology in the department goes beyond fulfilling the syllabus requirements of the University, to meet the today's industry needs.

ABOUT THE PROGRAM

This program intends to develop a perceptive of various techniques that enforces research challenges in Technology. It offers opportunities to widen their knowledge and to pursue research studies. It provides opportunities for teachers in service, to exchange experience with their peers and learn mutually from each other. It mainly focuses on the concepts in the topics mentioned which will give a good understanding of the issues relevant to core areas. The present Workshop is to provide deep knowledge in the Research Fundamentals.

CONTENTS

- Fundamentals of Research
- Tools and methods of data collection
- Research based on Secondary data
- Data analysis Using statically Software
- Reporting and presentation
- Citation, Reference management tool and
- Plagiarism

All the Faculty/ Research Scholars/ P.G students/ Employees from relevant industries are eligible to register for the program. Spot registrations are also available.

PROGRAM REPORT

Name of the Program	A One Day Seminar on Research Fundamentals
Resource Person	Dr.G.Krishna Kishore
Date of Activity	10-01-2020
Organized by	Department of Computer Science and Engineering
Venue	CSE Seminar Hall

Objective:

The objective of this seminar was to share knowledge with participants about the Research Fundamental Practices to promote Research. The seminar will start with some theoretical input sessions so as to help the participants to brush the knowledge in basic research methods. Mainly it discusses on meaning of research, gain knowledge on objectives and characteristics of research and their categories. The purpose of research is to discover answers to questions through the application of scientific procedures.

About the Seminar:

The main aim of seminar is to find out the truth which is hidden and which has not been discovered as yet to propose on research. They learn defining and redefining problems, formulating, hypothesis or suggested solution: collecting, organizing and evaluating data: making deductions and formulating hypothesis. This will help them to select an appropriate research design. With the help of this participants will be able to take up and implement a research project/study.

Outcome:

- Participants will be able to understand and comprehend the basics in research fundamentals and applying them in research/ project work.
- It will also enable them to collect the data, edit it properly and analyze it accordingly

- This will facilitate participant's prosperity in higher education.
- They will develop skills in qualitative and quantitative data analysis and presentation.
- Participants will be able to demonstrate the ability to choose methods appropriate to research objectives.

Total no. of Participants: 43
