PROGRAM REPORT

Name of the program: DATA SCIENCE AND IT'S APPLICATIONS

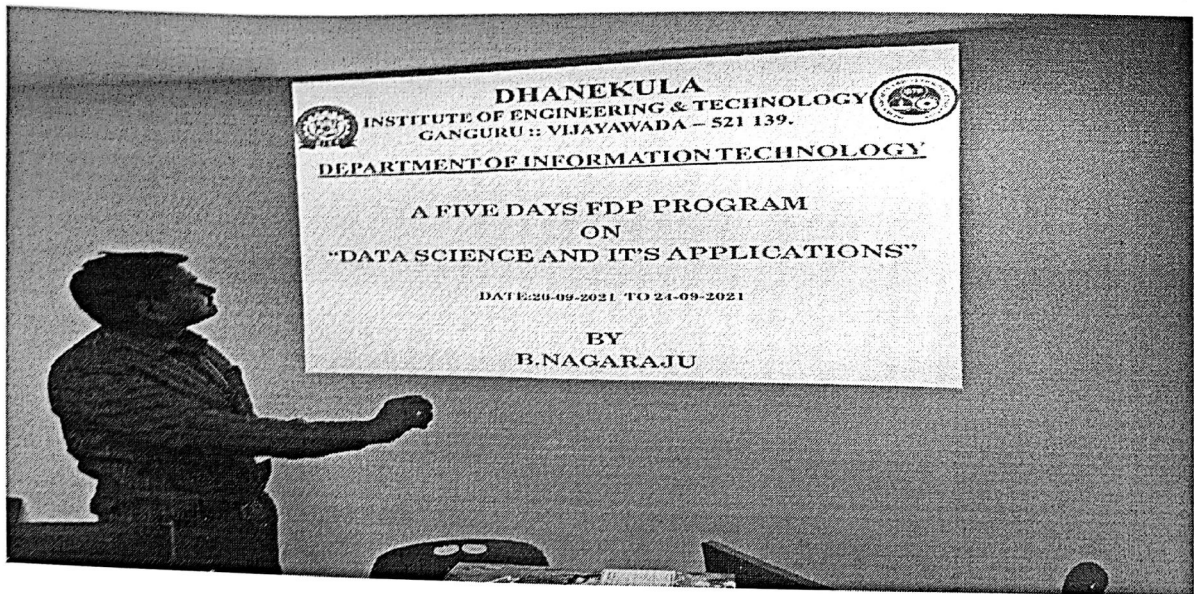

Organized by: INFORMATION TECHNOLOGY

Date: (20-09-2021 To 24-09-2021)

Objective:

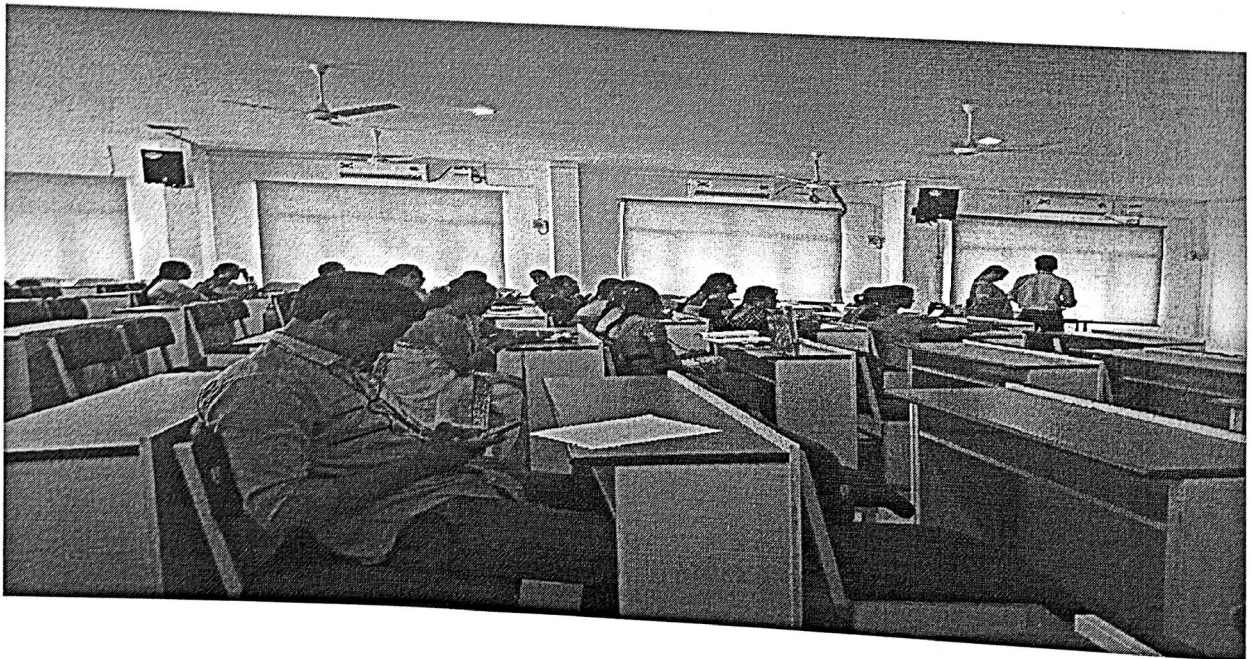

This faculty development program provides an introduction to computer vision including image acquisition and image formation models, radiometric models of image formation, image formation in the camera, image processing concepts, concept of feature extraction and selection for pattern classification/recognition, and advanced concepts

About the FDP: This FDP for faculty members of technical institutes of India for free of cost. We got huge response for registration as well as lots of compliment of arranging the online workshop, content and hands on.

Outcome:

FDPs often focus on developing participants' skills in solving real-world problems using computer vision and image processing techniques.

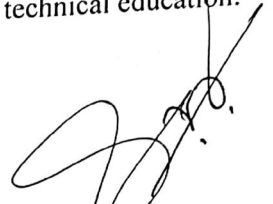

Total no. of Participants: 26

The inauguration was held on 29th August 2022 at 09:20 am. Chief Guest of the program was Ms. Shobha Rani garu, Senior DGM & Head of AI/ML – Bharat Electronics Limited, Bengaluru, Sri. Dhanekula Ravindranath Tagore, Agriculturist & Industrialist, Chairman, DVST, Sri. Dhanekula Bhavani Prasad, Secretary & Correspondent, DVST, Sri. D.R.K. Ravi Prasad, Director, (Rtd.Sr. Dy. General Manager, BEL, Machilipatnam).

Ms. Shobha Rani addressed the participants about the FDP and its importance for interdisciplinary branches and also talked about Roles and Responsibility in technical education.

About the Institution:

Dhanekula institute of Engineering & Technology, established in the year 2009 is the first of its kind Technical Institute founded by Sri Dhanekula Ravindranath Tagore, a visionary and a living legend. He is famous for his versatility and excellence in promoting various agricultural and industrial organizations and is known for his love and affection-uplifting the economically backward classes. Affiliated to JNTUK, Kakinada and approved by AICTE, it aims at providing a sound technical knowledge and broad vision to the technocrats of future as they are prepared for a successful tomorrow. To achieve the motto, it has a comprehensive pedagogical structure which provides paramount academic skills, curriculum with the ever-evolving dynamics of global business environment, esteemed faculty with their vast experience and expertise. The institution intends to produce proficient engineers to face the dynamic changes of the present century.

The college campus extends over an area of 11 acres of the land situated close to the historical Hindu Goddess Kanaka Durga Temple which situated on the bank of the Krishna River, Vijayawada. The campus is divided into various functional zones like Main college building, Hostels, Administration block in addition to e-Lecture halls, Tutorial halls, Seminar halls & Drawing halls. The college has a world class Auditorium, Library, Computer centre, Reading rooms, Workshops, and well-equipped Laboratories for various departments. Institute is accredited by NAAC and certified by ISO 9001:2015.

Institute offers five undergraduate programs in ME, CE, ECE, CSE and EEE and two post graduate programs in ECE and CSE. It also offers

About the Department:

The department of Mechanical Engineering is really a source of inspiration for all initiating various academic and training activities. Established in the year 2009 it strives to impart outcome-based engineering education. It offers under graduate program with an intake of 120. Department has 22 well qualified and committed faculty of various research interests in Mechanical Engineering field. Department organizes various curricular, co-curricular and extracurricular activities through its association MADE (Mechanical Association of Dhanekula Engineers). The well-equipped facilities include Basic Engineering workshop, IC Engines Lab, Fuels Lab and CAE Lab (with licensed advanced software like AutoCAD, ANSYS 18.1 with CFD, Creo4, CATIA V5), Heat Transfer Lab, Production Technology Lab, Machine tools lab, Metallurgy Lab, Metrology & Instrumentation Lab, Simulation lab and also have refrigeration and air conditioning lab as extra facility to provide additional learning. It also provides support to the students in executing quality projects through Design & Fabrication Lab with necessary software and hardware and R&D lab for research work.

Theme of the FDP:

In the context of rapid proliferation of additive manufacturing (popularly known as 3D printing), it is the high time that the faculty members of Mechanical Engineering discipline get equipped with the skills pertaining to modelling for the purpose of creating 3D Printed models for accelerating innovations, product design and development process. With this perspective, the FDP on CAD modelling and 3D printing is being organized.

Topics to be Covered:

- Fundamentals of Computer-Aided Design
- Introduction to 3D printing Techniques, Applications and Challenges
- Practical insights into the world of 3D printing: Concept to prototype
- Hands on session for Creating 3D CAD models
- Hands on session for 3D printing simple mechanical components
- Demonstration of the effect of few critical parameters on the quality of 3D printed parts

Faculty Development Program on CAD Modelling and 3D Printing
(01st - 05th March 2022)

REPORT

Department of Mechanical Engineering organized a Faculty Development Program on CAD Modelling and 3D Printing, during 01st - 05th March 2022. The FDP was aimed at exposing Mechanical Engineering faculty members to the CAD modelling skills for the purpose of creating 3D Printed models. Focus of the FDP has been to enable faculty members to guide students for undertaking innovative projects. An idea conceived need to be prototyped, tested and validated. The FDP is expected to deliver the required skills for the purpose through lectures and relevant hands-on sessions etc.

Resource Person addressing the participants

First day of the FDP commenced with an inaugural session, presided by the Head, Department of Mechanical Engineering. Principal sir emphasized on the importance of innovations in the Higher educational Institutions and wished the participants utilize the skills acquired from the FDP for executing innovative undergraduate projects. On the first day two technical sessions were conducted. In the sessions, the resource persons furnished fundamentals pertaining to CAD modelling and 3D printing. Second day commenced with a

session on demonstration of creating CAD models, followed by a session on 3D printing techniques, applications, challenges etc. On the subsequent day, practical insights pertaining to concept to prototyping using 3D printing were imparted. Further hands-on sessions were conducted regarding creating CAD models of simple mechanical components and using them for 3D printing was executed. On the penultimate day, nuances pertaining to the influence of selection of critical parameters on the quality and performance of the 3D printed parts were presented to the participants. The participants were allowed to tinker with couple of parameters with their hands and experience the outcome. The FDP concluded with a short assessment for the participants followed by their feedback and a valedictory session. The participants in general expressed their happiness regarding the hands-on exposure provided to them.

Date: 27.12.2021

All the Student Counsellors of I B.Tech, I Sem are hereby invited to attend the 'Refresher Workshop on Student Mentoring' which is going to be organized in the first week of January, 2022.

In this regard faculty are requested to attend the sessions with relevant counselling details of their batches.

Note: other faculty who are interested to participate may also register and attend the sessions.

Programme Details:

Type of the Programme	FDP - Life Skills
Title of the Event	'Refresher Workshop on Student Mentoring'
Resource Person	Dr. Ravi Kadiyala, Principal, DIET.
Timings	10:00 AM – 12:00 PM & 2:00 – 4:00 PM
Day	04-08 Jan 2022
Venue	BS&H Conference Hall
Internal Faculty (guidance)	Class Incharges & Mrs V Vasanthi, Assoc. Prof., BS&H

Topics Covered:

- Role of a Mentor
- Mentoring process
- Building rapport with the students
- Concerns / Issues of Students
- Career / personal guidance for students

Assessment Criteria: N/A (orientation sessions)

Resource Person: **Dr Ravi Kadiyala, Principal, DIET**

Co-facilitators : 1. Dr BVSN Hari Prasad, HoD, BS&H

2. Mrs V Vasanthi, Coordinator, SCC, BS&H

Target Audience: Student Counsellors of I B.Tech, I Sem. & other interested faculty

Foreword:

Mentoring / Counselling is a natural process of the human life and it helps people recognize and reflect on their own self. Student counselling at DhaneKula Institute is a step further empowering the faculty as well as the students bring out their innate abilities and be responsible for the well-being of the society in general.

Objectives of the FDP:

- To boost the morale of the individuals, both staff and students affirm their self-worth.
- To appraise people's working skills and guidance to perceive right attitude.
- To create a congenial, healthy environment- facing the challenges confidently.
- To endorse a non-judgmental approach.

Outcomes:

By the end of the event, Participants will be able to –

1. Create a congenial, healthy environment in the classroom / campus.

PROGRAM REPORT

Name of the Event : A Six Days Hands on Internet of Things Workshop with Arduino.

Date: 11-04-2022 to 16-04-2022

Resource Persons: 1. Mr. Mohammed Abdul Aziz
Assistant professor
Department of ECE
Email ID: abdulspract@gmail.com
Contact No: 8639560776

Name of the Co-Ordinator: Dr. M Vamshi Krishna

Number of Participants: 12

Venue: APSSDC LAB

Objectives:

- Design, implementation and validation of an IoT Reference Architecture.
- Definition and implementation of distributed smart networking components
- Definition of smart distributed IoT enablers
- Implementation of human-centric tools and interfaces
- Deployment and evaluation of real-time projects
- Impact creation: Showcasing IoT and Disrupting the current market

Learning Outcomes :

- Develop awareness and master basic programming concepts to solve real problems.
- Conceptually visualize and describe IoT for a given problem.
- Analyze and consider sensors and Controller boards.
- Examine and implement data acquisition using different boards available in the market.
- Apply software methodology to create application
- Identify the real-world application in which IoT makes a difference in our lives

- Collaborate with teammates to complete a project
- Identify the state of the art related to all topics of IoT

Dhanekula Institute of Engineering and Technology has organized “A Six Days Hands on Internet of Things Workshop with Arduino” for Lab Technicians from 11.04.2022 to 16.04.2022. A total of 12 Lab Technicians were participated in this program.
